

EYFS News

We are continuously thinking of ways to improve and adapt our learning environment here at St Peter's. We are incredibly grateful to two generous people who have recently helped us to revamp our outdoor construction area.

Mr Kevin Baker, director of **Red Viking Railway**, very kindly donated the building materials costing approximately £500 for this project. This generous donation means that we can spend more of our school budget on new learning equipment for use in this area, so we are eternally grateful for all you have done
Mr Baker, thank you!

Our wonderful **site manager Mr Brewster** worked extremely hard during his time at the weekend to complete this engaging construction area for us. He also donated some building materials for us. We truly appreciate your time, hard work and generosity with this Mr Brewster, thank you for all you do!

before - during - after

If you have access to LinkedIn or Twitter, please do take the time to leave a review or comment to show your appreciation for this generous and thoughtful work on behalf of all Reception children and staff.
